

JON PAPARSENOS '99
VICE PRESIDENT FOR
UNIVERSITY ADVANCEMENT

Seton Hall is a place like none other. When remembering the years I spent here as an undergraduate student, I think of how my mind was opened to new knowledge, new skills, new friends and a new direction for my future. In turn, I feel gratitude for and pride in the resources this University offered me, and that I benefited from tremendously.

I am confident you share with me this sense of pride and gratitude, because it is one of the unifying characteristics of Seton Hall graduates: We are “for all” and “forever.” Everyone in our community is ready and willing to lift each other up when called to do so — and we will always feel that sense of family loyalty.

That is why we feel empowered to ask you to join us now, during this unprecedented campaign, and show your support for the institution that has done so much for us. You are indispensable to the success of this critical endeavor. Your support will have exponential impact, reaching far into the future, creating an even greater University for all ... and forever.

I look forward to keeping in touch and sharing the status of the campaign in the months to come. Thank you for being a part of it!

Go Hall!
